Frameworks: React, Node, .NET , Anaconda, Jetpack Compose, React Native
Tools: MS Visual Studio, VS Code, SQL Server Management Studio (SSMS),Android Studio
Languages: Spanish (native), English (B1/intermediate)

SOFT SKILLS

Teamwork, proactivity, adaptability, problem-solving, organizational skills, assertive communication, creativity, time management, attention to detail, emotional intelligence, conflict resolution, empathy, flexibility, decision-making, active listening, continuous learning, leadership, delivery commitment.

EXPERIENCE

Cycle catalog

- Development of a web app with the site's product catalog and administrative dashboard for sales, invoices and user control for the administrator
- Complete PHP app with Laravel and blade framework as the main engine
- Queries in mySQL databases with user-friendly and easy-to-use interface

BusGo app

- Development of a real-time bus route creation and tracking application on a map, featuring a web interface for administration and a mobile app for drivers and passengers.
- Built using a microservices architecture with Docker.
- Utilized Java following the MVC architectural pattern across microservices.
- PostgreSQL database used for queries, implemented with separate schemas per microservice.¿

Sistema_FACIAL_PRO

- Python-based development of a facial recognition application.
- MySQL database to log real-time access and manage system protocols.
- Tkinter for the user interface and the cryptography library to encrypt sensitive data and user names.

CERTIFICATIONS

Conversational **English**

2020

- Conversational English Intermediate Level Course in Colegio Humanístico de Costa Rica Campus Sarapiquí
